

Formulas Provided by the Idaho WIC Program – Effective October 19

Not all formulas in the WIC Formula Handbook are approved by the Idaho WIC Program, but they are included for your reference.

- Per federal regulation, Medicaid is the primary payer for exempt infant formulas and WIC-eligible nutritionals issued to WIC participants who are also Medicaid beneficiaries. CHIP provides identical coverage for exempt infant formulas and WIC-eligible nutritionals issued to WIC participants who are also CHIP beneficiaries. Per Medicaid, “Idaho Medicaid will cover medical grade infant formula for infants (under one year of age) requiring dietary management for a diagnosed medical condition that restricts the use of conventional sources of nutrition.” (From Idaho Medicaid Provider Handbook)

Contract Formulas

- Standard formulas:**
 - Similac Advance
 - Similac Soy Isomil
- Alternate 19kcal formulas:**
 - Similac Sensitive
 - Similac for Spit Up
 - Similac Total Comfort
- Alternate 19kcal formulas** require a Medical Documentation form to be reviewed by any WIC staff member and can be issued through Food Package 3.
- Non-contract** standard infant formulas that are nutritionally comparable to contract brand formulas or low-iron formulas will not be issued and Medical Documentation forms/prescriptions will not be accepted under any circumstances.
- Other:** These formulas are considered **exempt** and do not fit into any other category but are available with a Medical Documentation form/prescription for medical conditions containing a medical diagnosis.

Exempt Formulas - Idaho WIC Approved

- Highlighted formulas are available in a **food package** in the computer system. **If a food package is not available, please complete a Direct Bill form.**
- These formulas require a Medical Documentation form.
- All Direct Bills are to be faxed to Coram at **800-693-7322**.
